V. GKS 동문 및 재학생

○ GKS 동문 및 재학생 인터뷰

I really enjoy studying at Hoseo University in the Department of ****. I'm learning things that will truly be useful for my future career. Most of our classes are focused on hands-on practice, and we are constantly building up our portfolios. This practical approach helps me stay motivated and focused.

However, I've experienced some difficulties in communication with the department office. Since there are not many international students in our major, it seems a bit hard for them to communicate with me, and I sometimes felt pressure from the administration. Aside from that, everything is going well. I'm satisfied with my education here and happy to be a student at Hoseo University.

I am currently studying at Hoseo University as a Master's student in ****. I am the only student in my class, which allows for more direct interaction with the professor and which gives me more individual attention from the professor, I count myself lucky.

The academic environment is supportive, and the professors are knowledgeable and approachable. The campus is peaceful, with well-equipped facilities that make studying comfortable.

However, during vacation periods, transportation becomes more difficult, which affects commuting. Despite this small challenge, I appreciate the opportunity to study here. This experience has been rewarding both academically and personally, and it has also motivated me to improve my Korean.

In Hoseo University's **** Department, I've learned a variety of studies, from linguistics to education and literature studies. These subjects comprehensively address the spectrum of knowledge an English student desires. What stands out even more is that the educators' academic expertise are matched with their friendliness and approachable personalities, creating a positive learning environment. The campus life also offers plenty of chances for exploration and personal growth through diverse cultural activities and engaging academic events. Hoseo University is more than a place to learn; it's a community where everyone is encouraged to thrive.
